# AH80 Bluetooth Headset

New-generation headset for hybrid work in different scenarios

DESIGNED FOR WORK  
ENJOY @ LIFE

## Immersive Audio

It is powered by Qualcomm cVc noise cancellation technology which employs the five-mic array to effectively reduce the ambient noise during a phone call. Powered by SONY's advanced active noise cancellation technology. Transparency mode allows you to hear the world around without taking off your headset.

## Flexible Connectivity

Wireless connection with your cell phone, PC, deskphone, TV and game console. Audio cable lets you enjoy uncompromising phone calls or music while charging your headset. Compatible with mainstream unified communication platforms. Boost your productivity in phone calls and video conferencing, whether you are in an open office, work from home or anywhere.

## Robust Performance

The long Bluetooth connection range of 75 meters allows you the freedom of pacing away from the desk while on the phone. Up to 45 hours of playback time 35 hours talk time. Low latency audio delivers sound in sync with what's on screen.

## Ease of Use

Simply get focused by pulling out the retractable microphone boom. Simply change the status light to "Busy", so that you will not be disturbed during a meeting. The wireless charging capability allows for easier charging without the hassle of tangled wires. Multiple modes easily accessible via gentle tap/-press.
