

Alcatel-Lucent Enterprise EHS300 Wireless Headset Adapter & Cables

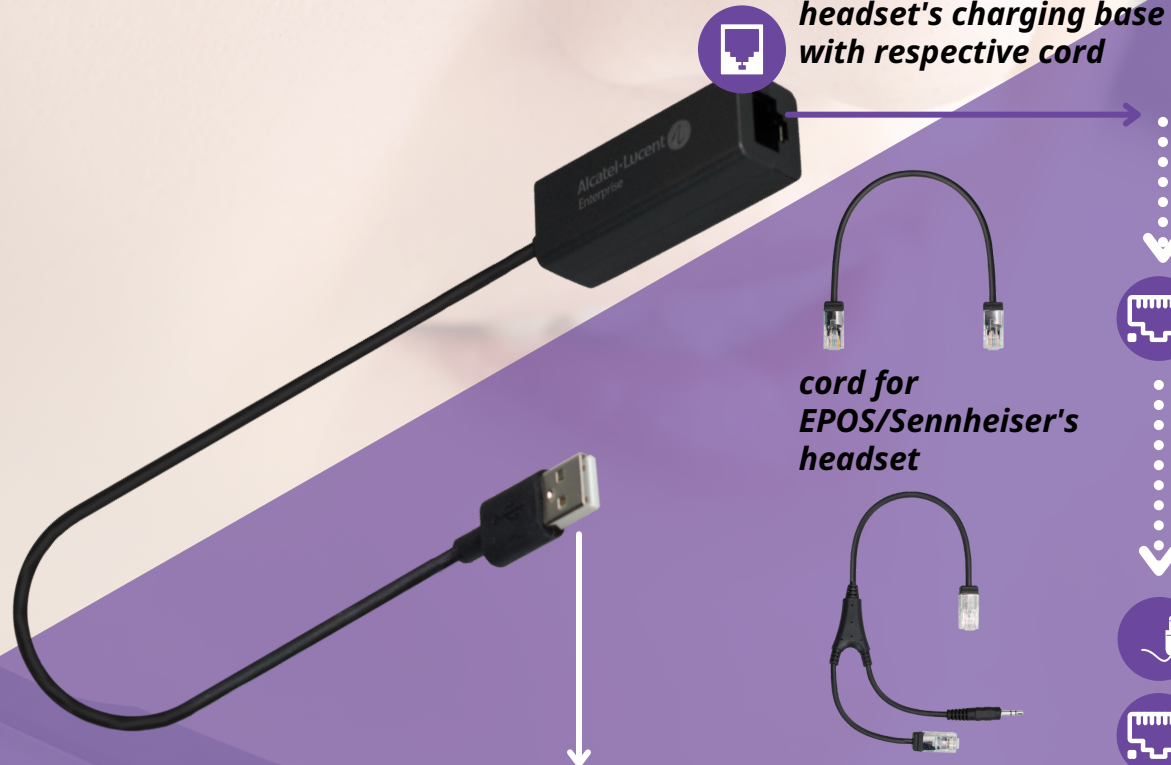

Enjoy wireless freedom

What is an EHS adapter?

An Electronic Hookswitch (EHS) adapter provides a **ring alert signal** to your headset anytime your deskphone rings. It also allows you to **answer** and **end calls** right from your headset anywhere within your headset's range.

Why do you need the ALE EHS adapter & cables?

- Connect the ALE M3/M5/M7/H6 deskphone with Jabra, Poly/Plantronics, or EPOS/Sennheiser's wireless headset
- Enjoy stable and flexible communications through devices' collaboration from the market tested brands
- Plug-and-play with both adapter and cables offered

connect to the headset's charging base with respective cord

cord for EPOS/Sennheiser's headset

cord for Poly/Plantronics' headset

cord for Jabra's headset
